Do you drive? YES _____ If not, how would you come to ITEXPS office? _____

What are your preferred areas of work? 1/

1.) Robotics/ IOT Programming

2.) Data Analytics

3.) Mobile Web Development

What are your objectives in undertaking an internship with ITEXPS?

Although there are many benefits and opportunities that this internship will bring to me, such as learning real-life project and management skills, building a professional network, and gaining experience working with a team, my primary objectives fall within two categories: improving my technical skills and learning alongside my project's team members.

I view this internship as a golden opportunity for me because it will allow me to build upon my current knowledge and technical skills along with gaining real-life experience from working with experts. This internship will teach me project planning, business analysis, documentation, presentation, marketing, and much more. I will then combine this new knowledge with my current understanding and apply it to my project. Most importantly, I hope that this process will happen under the guidance of experts, whom I intend to learn from as well.

Furthermore, my second objective is to learn alongside my project's team members. This involves all of us building upon each of our individual skills, learning from our team's mistakes, and in the end, creating an outstanding project.

Thus, my main objectives in undertaking an internship with ITEXPS are refining my technical and team skills.

Career Plans [Where you want to see in 5, 10, 15 years from now?]:

In the future, I hope to continue on a Computer Science/Artificial Intelligence career path. In the immediate future, about 5 years from now, I hope to major in Computer Science and earn my Masters or PHD in Artificial Intelligence. With my knowledge, I want to create a company that specializes in creating products with AI that help others, either in the medical, social, or financial fields. I also see a possibility of working for a major company, such as Google or Tesla. Most importantly, in 15-20 years, I hope to find some way to share my knowledge with others, whether it'd be through a published book or paper, or through teaching classes.

Employment: Please describe any previous practical experience you may have had.

1)

I have not held a proper job in the past.

Student Responsibilities While On Assignment:

- Student is expected to participate in an Organization orientation, including the processes and techniques for maintaining the safety of the workplace.
- Student is expected to abide by all rules and regulations established by the worksite supervisor, as well as the Organization's policies and procedures.
- Student will not borrow or "burn" copies of company/agency software, CD's, or any resource materials without documented permission of the site supervisor. Further any student involved with the taking or using of any hardware/software/resource without express permission from the company/agency will be removed from the program
- Student is responsible for reporting to the Faculty Internship Advisor or ITEXPS Career Services Internship Coordinator the reassignment of tasks which differ significantly from the agreed-upon duties and responsibilities, outlined on the signed Internship Work Agreement form.
- Student understands that if s/he is using personal vehicle when traveling to/from internship or for the benefit of the Organization, ITEXPS has no liability for personal injury or property damage which may result from its use. Student agrees to rely solely on personal vehicle insurance or insurance provided by internship coverage, if applicable.
- Student understands that ITEXPS assumes no responsibility for personal injury which may be suffered during the internship.

- Student agrees to contact the Career Services Internship Coordinator should issues of sexual harassment or other grievance-related issues arise.
- Student will not file for Unemployment Compensation benefits upon the completion of the work term.
- Student agrees to have sufficient health, accident, disability, and hospitalization insurance to cover him/her during the internship.
- Student is expected to attend the worksite whenever scheduled to work. If the student must be absent due to illness or family emergency, the student is required to report the needed absence to the site supervisor as soon as possible. Further, the student must report the absence to the Faculty Internship Advisor, if required by that department. Students are also expected to be "on-time" for work and prompt in completing assigned tasks.
- Student is agreed that this internship program is unpaid positions providing students with practical experience to support their learning.

I certify that the statements made by me in answer to the foregoing questions are true, complete and correct to the best of my knowledge and belief.
